# About us

## Who we are

Podoblock is the global leader in accessories and tools for the imaging market. We re-imagine and reinvent the way imaging professionals in the veterinary field worldwide make quick and safe X-rays and ultrasounds with enhanced efficiency and mobility. We believe that safety for imaging professionals is crucial when exposed to hazardous environments, and efficiency is necessary for a fast-paced profession. So we innovate solutions to help practitioners stay safe and efficient with enhanced mobility. We design, build and test each piece of equipment to ensure our quality and your safety. **Re-imagine the way you work.**

## Our history

Podoblock has always set the bar for high quality solutions by constantly innovating to improve our customers' efficiency and safety. With almost 30 years of gained working professionally with horses, and 15 years in the medical device industry, we listen to our customers and develop expertise in innovating durable, high standard, and practical solutions for every daily job.

## Innovative solutions today

New technologies continue to evolve. Our goal is to invest more in solutions development to align with the market needs and the technologies as they develop.

## Made in Holland

All products are made in the Netherlands, and we choose only the highest quality material.

## Deliverability

We offer a worldwide delivery service through our warehouses in the Netherlands and Florida, USA.

## Service and repairs

Our products are made of the highest quality materials, but there can always happen something. In that case, we provide remote service and repair with proper instructions or do it ourselves from our in-house repair service.

# 1 | Orthopaedics

At Podoblock, we recognize the challenges that equine veterinarians face daily. From the onset of our business in 2008, we have been aware of the hurdles that come with equine X-raying and ultrasound. Our very first contraption, the Podoblock, has been a whopping success ever since. It always guarantees the same angle in every position, and it maximally minimizes radiation because of the hands-free system.

From there we developed a whole range of robust, solid and almost indestructible products which help you work safe and efficiently.

## Podoblock

- Made of aluminium base and a synthetic PE500 top piece
- Weight Podoblock: 6,5 kg
- 4 rubber feet
- Includes 1 Topblock of your choice
- LM / AP / 45° Hands-free system
- Avoids fingers on your X-ray
- Height from ground to tip-off hoof in Podoblock is either 90, 120 or 170 mm

Product	Itemnumber	Price
Base Element 90 mm	PB 01AL090	€ 425,-
BE 90mm + TB 45°	PB 01AL090-45	€ 600,-

### Abbreviation:

BE = Base Element

TB = Topblock

UP = Upright Pedal

### Topblock + optional wedge

Easily interchangeable radiolucent blocks for our Podoblock with an angle diversity of 45° to 60° with 5° increments.

- Made of synthetic PE500
- Available in black only

Product	Itemnumber	Price
Topblock 45°	TB 0250045	€ 175,-
Topblock 50°	TB 0250050	€ 175,-
Topblock 55°	TB 0250055	€ 175,-
Topblock 60°	TB 0250060	€ 175,-
Topblock 60° Upright pedal	TBD 0250060	€ 175,-
Topblock Wedge 10°	TBW 0250010	€ 75,-

Design:  
Dr. Joachim Onderka

### MagRayCloxx

Magnetic X-ray block that greatly enhances both your and the horse's mobility and working speed. The blocks stay on the horse while making oblique X-rays.

The block has a clean break-over and a cut lateral and medial edge.

The cloxx can be used with or without (radiolucent) foil that is wrapped around the horse's shoe for safe fixation, and even works on a barefoot horse.

- Made of synthetic PE500
- Size: 150 x 160 x 60 mm
- Clean break-over on both front and side
- Magnets to fix to the horseshoe
- Bottom of Cloxx padded with anti-slip rubber strips
- Comes with radiolucent foil for extra fixation

Product	Itemnumber	Price
2 Blocks / 1 Hand dispenser / 5 Foil	MRC 01SET2-5	€ 490,-
4 Blocks / 1 Hand dispenser / 12 Foil	MRC 01SET4-12	€ 900,- *
1 Hand dispenser / 12 Foil rolls	MRC 01FOIL1-12	€ 80,-

\* Combi-deal: €80 discount on sale price.

### Topblock Flatplate LM / AP/ 45°

For LM / AP / 45° takes with the foot standing flat or upright pedal.

- Anti-slip surface
- Made of synthetic PE500
- Available in black only

Product	Itemnumber	Price
Topblock Flatplate AP	TBF 02500AP	€ 175,-
Topblock Flatplate LM / AP	TBF 02500LMAP	€ 175,-
Topblock Flatplate LM / AP/45°	TBF 0250045	€ 175,-

### Hoofplaster

For shadow-free hoof recordings.

Content	Itemnumber	Price
5 x 250 gr	HP 10BL25005	€ 22,50
25 x 250 gr	HP 10BL25025	€ 100,- *1
50 x 250 gr	HP 10BL25050	€ 185,- *2

Combi-deal: \*1 € 12,50, \*2 € 40,- discount on sale price.

### SCANdroid

The ideal, height-adjustable scan stool for the mobile veterinarian to transport to the job site or for clinic use. The SCANdroid has excellent stability with a total of 5 castor wheels, 2 of which with a locking device. The gas spring allows for a stageless height-adjustment and can be upgraded with an optional Extension pipe. Upgrade your SCANdroid bottom tray with a Coverplate to protect the bottom of the SCANdroid from dust and dirt. The Coverplate can be customised with your own logo.

- Transport: Ø40 cm x 23 cm height / 9.3 kg weight
- Maximum weight bearing gas spring is 110 kg

Working heights are as follow:

- SCANdroid: 23 cm + 38 - 51 cm
- SCANdroid with Extension Short: 23 cm + 38 - 64 cm
- SCANdroid with Extension Long: 23 cm + 38 - 51 cm + 63-75 cm
- SCANdroid with Extension Short and Long: 23 cm + 38 - 75 cm

Product	Itemnumber	Price
SCANdroid	SK 1039270	€ 525,-
SCANdroid + Extension Short	SK 1039270 S	€ 620,- * 1
SCANdroid + Extension Long	SK 1039270 L	€ 620,- * 1
SCANdroid + both Extensions	SK 1039270 SL	€ 700,- * 2
Extension Short	SK 10EXT150	€ 100,-
Extension Long	SK 10EXT307	€ 100,-
Coverplate + Podoblock logo	SK 10COVER-PB	€ 55,-
Coverplate + Customer logo	SK 10COVER-PR	€ 70,-

\* Combi-deal: 1 €5, 2 €25 discount on sale prices.

### Cooperflex

A light-weight, sturdy and highly mobile hoof support with a pivot that allows you to change the angle of the foot pedal.

Comes with an extension-pipe that gives you more working-height.

- Material Base plate: High-density Polyethylene
- Material Foot stand: Aluminium
- Weight: 4,5 kg
- Diameter Base: Ø 40 cm
- Low - High position: 20 cm - 40 cm
- Extension pipe also serves as a carrying device

Product	Itemnumber	Price
Cooperflex	CF 10FLSTND	€ 740,-

### U-scan

Our own standoff, adaptable for a wide range of linear-array transducers.

- Thickness sides: 7 mm
- Thickness bottom: 12 mm
- Comes in a protective box

Note:

We supply all available kinds of standoff on request.

### SCAN Wedge

Straight-forward wedge for extra extension to be placed under the hoof when conducting hyperextension-test of the coffin joint.

- Material : Rubber 95° Shore
- Dimensions: L 180 x W 150 x H 65-0 mm
- Angle: 20°

Product	Itemnumber	Price
SCAN Wedge	SW 1050065-0	€ 85,-

### Flabbus Ultrasound Standoff

The Flabbus Ultrasound Standoff is an exceptionally elastic item, conforming to patient contours while maintaining uniform thickness and universal application to each type of Probe head.

Flabbus Ultrasound Standoff is made of a proprietary synthetic gel, resulting in a moulded material that does not suffer inelastic strain from everyday stresses.

Consequently, the Flabbus Ultrasound Standoff does not have to be bagged or wrapped in plastic film to maintain its shape and can be easily stored.

For optimal use, the user can cut it to his/her preferred size-of-use with the supplied scissors. For example, the 300 x 300 mm Flabbus can be cut into six smaller parts of 100 x 150 mm.

Any other size is a possibility, depending on personal choice.

- Size: 300 x 300 mm
- Thickness: 3 mm or 5 mm

Product	Itemnumber	Price
U-scan	LAS 10804010	€ 275,-
Flabbus Standoff - 3 mm	FUS 1030303	€ 215,-
Flabbus Standoff - 5 mm	FUS 1030305	€ 215,-

### Professional Equine Vet Review

*"This new Podoblock SCANwedge is very helpful in performing the hyperextension-test of the coffin joint. The different structures can be stressed individually. Both navicular bone and bursa, with deep digital flexor tendon are easily put under tension and pressure by lifting up the toe.*

*By placing the wedge from the side under the hoof it is easy to put tension on the collateral ligaments of the toe and pressure on the joint surfaces of the opposite side.*

*The wedge is a very good tool to make a precise diagnosis in clinical lameness exam. Furthermore, the wedge can be used to perform a better ultrasound of the collateral ligaments of the coffin joint. The ligament can be visualized more distally by stretching it a bit out of the hoof capsule."*

**Dr. med. vet. Claudius Krieg**  
Pferdepraxis Equine-Vet

Every year thousands of foals are born with flexural or angular limb deformities or deviations at the level of the carpus or fetlocks - avoiding that they reach their optimal performance level later in life.

Redboot reintroduces the use of external co-optation with a revolutionary line of boots and braces, specially designed in both lighter and durable materials that adapt anatomically and with comfort, avoiding the injuries that can be produced by old fashioned devices.

### Corrective Foal Boot

The Corrective Foal Boot is designed to be used in all fetlocks for:

- Correction of Flexural Limb Deformities or contracted tendons
- Correction of Angular Limb Deformities or toe-in / toe-out conditions
- Prevention of acquired retraction due to pain-post-injury
- Permanent or temporary immobilization of the distal limb (for better management of fractures, tendon or ligament injuries and wounds)

The Corrective Foal Boot comes in one-size-fits-all.

Product	Itemnumber	Price
Redboot   Corrective Foal	RED 13CFB	€ 495,-

### Emergency Compression Boot

The Emergency Compression Boot can be used for:

- Immobilization of distal limbs
- Emergency breakdown stabilization
- Condylar, sesamoid or P1, P2 and P3 fractures (where normal alignment is required)
- Wound management (where immobilization is required)

The Emergency Compression Boot comes in 2 sizes: Regular and Large.

Product	Itemnumber	Price
Redboot   Emergency Compression Boot	RED 13ECBR	€ 550,-
Redboot   Emergency Compression Boot	RED 13ECBL	€ 550,-

### Articulated Corrective Brace

The Articulated Corrective Brace can be used in the full front limbs for:

- Correction of Flexural Limb Deformities or contracted tendons
- Correction of Angular Limb Deformities or Carpus Varus/Valgus
- Prevention of acquired full limb retractions (due to pain)
- Permanent or temporary immobilization of the full limb

This model also comes in two sizes: Regular and Large.

Product	Itemnumber	Price
Redboot   Articulated Corrective Brace	RED 13ACBR	€ 800,-
Redboot   Articulated Corrective Brace (L)	RED 13ACBL	€ 800,-

# 2 | Dental

At the start of our company, we could not have envisioned the demand for dental X-ray solutions we get these days. But, after introducing it more than 10 years ago, it soared, and now we lead the way with practical solutions. In this chapter, we have several standard products to improve and simplify these usually tricky tasks.

Note:  
When ordering the optional CR-Cassette or DR-Flat panel solutions, be sure to state the required cassette measurements you use.

## Denfinity

This lightweight, portable and collapsible stainless steel stand offers you the freedom to make high-quality Skull X-rays in a hands-free fashion. The Denfinity stand is a fully stainless steel base plate and vertical telescopic pole that guarantees a secure positioning and correct height adjustment.

### Configuration and Combination Possibilities

#### The Base

You can configure the base plate and pole with several options that can quickly and directly be placed on the Denfinity base.

#### The 3D-Joint

The aluminium 3D-joint is a rotating head joint that securely attaches our DR-Buckybox and DR-Cowboybox.

#### The LM-Head Support

In combination with our Protectionbox, Podo-Protectionbox, DR-Buckybox and DR-Cowboybox and fixates your CR-Cassette or DR-Flatpanel for best usage.

#### The DR-Buckybox

Secures your Cassette or Digital Flat Panel when used in combination with the 3D-joint and LM-Head support.

Note:  
For more information revert to page 29 Buckybox in H5

## Denfinity Options

### A. Base Element

Base plate: 350 x 405 x 90 mm  
Vertical pole: 960 mm  
Vertical travel: 600 mm  
Material: Stainless steel

### B. 3D-joint

Aluminium 3D-swivel joint used in combination with DR-Buckybox or DR-Cowboybox

### C. LM-Head support

Polycarbonate 10 mm  
Swivel range: 180° Universal adapter for fixation of all CR-Cassette & DR-Flat Panel Solutions

### D. Headrest

Polycarbonate 10 mm  
Full radiolucent, no metal parts in the detection area

### E. DR-Buckybox

Material: Polycarbonate 3 mm  
Fully closed cassette which requires 3D-joint to function

Product	Itemnumber	Price
Base Element	DSJ 1050401	€ 575,-
3D-Joint	DSJ 10DNL3D	€ 525,-
LM Head-support	DSJ 10LMHEAD	€ 410,-
Headrest	DSJ 10HREST	€ 220,-
DR-Buckybox   Wired	All Series	€ 640,-
DR-Buckybox   Wireless	All Series	€ 740,-

### XstandR

The XstandR is a revolutionary set of interchangeable radiolucent bite plates for equine head radiographs. The XstandR is only intended for taking X-rays of the incisors.

They are entirely universal to fit all speculi available in the market.

According to the official DAkKS-DKD-R 3-3 regulation, these radiolucent bite plates have been tested and can withstand a pressure of 5,13 kN / 513 kg.

- Material: HMPE1000
- Can withstand a pressure of 5,13 kN / 513 kg

Product	Itemnumber	Price
XstandR	RBP 10REGU	€ 465,-

Radiolucent bite plates sample X-ray

### The Juliuuster

Designed, tested and approved in collaboration with the European Equine Dental Consultancy.

Easy-to-use device to offset the lower jaw to the left or right for open-mouth views with offset-technique.

Great to investigate the roots and the occlusion surface of the cheek teeth. Dorso-ventral views can be made with a 5 cm offset to the left and right.

- Material: HMPE500
- Offset: 5 cm left/right
- Adjusted in 12 mm increments
- Strap: 148 cm BioThane

Product	Itemnumber	Price
Juliuuster	DRS 1011560	€ 385,-

### Dental X-Block

Can be used directly between the incisors to quickly create 60, 80 or 100 mm space.

- Material: Rubber 95° shore
- Weight: 650 gr
- Size: 60 x 80 x 100 mm

Product	Itemnumber	Price
Dental X-Block	DXB 106810	€ 95,-

# 3 | Gynaecology

Consistent results, simpler, safer and with a focus on the well-being of the horse. In gynaecology, we have developed an innovation in collaboration with Utrecht University and Seldsum EQ Hendriks. Just to make the work of veterinarians a little easier.

## OPU ProbeHolder

Our new ovum pick-up (OPU) probe holder is the ideal device for ovum ultrasound and is compatible with most ultrasound brands on the market.

With the ProbeHolder, you have an innovation that makes equine OPU ultrasound processes simpler, faster and more comfortable for both vet and horse.

The unique construction, material and size of this innovative product are the attributes that make it valuable. It comes equipped with an integrated needle chamber which can be (optional) supplied with a stainless steel needle guide.

Placing your Ultrasound probe is quick and easy and requires only one locking screw through the handle with integrated magnets secure it all.

### ProbeHolder:

- Material: HMPE - Blue
- Dimensions: L 52 x W 6 x H 18 cm (including the removable handgrip)
- One (red) locking screw
- Two integrated magnets for quick locking
- No additional tools required
- The removable handgrip can be placed on three sides
- Transport case included

### Needle guide:

- Material: stainless steel
- Dimensions: 53.5 cm total length
- Outer diameter 4 mm
- Inner diameter 3.4 mm
- Fits perfectly in the Probeholder
- No additional tools required
- Trumpet piece for easy and safe access with the needle

Product	Itemnumber	Price
Esaote CA123	OPU 10E-CA123	€ 1.450,-
Esaote EC123	OPU 10E-EC123	€ 1.450,-
Esaote SC3123 / mC3-11	OPU 10E-SC3123	€ 1.450,-
Esaote SE3123 / SE3133	OPU 10E-SE3123	€ 1.450,-
Sonosite C11X	OPU 10S-C11X	€ 1.450,-
Needle Guide   1 Piece	OPU 10NG524-1	€ 145,-
Needle Guide   5 Pieces	OPU 10NG524-5	€ 700,- *1
Needle Guide   12 Pieces	OPU 10NG524-12	€ 1.650,- *2

\*2 € 90 discount on sale price.

## 4 | Generator solutions

With our product line of generator gears, you will have no trouble finding a solution that will fit your daily needs and demands. Our Stat-X, jiXtr or X-ray switches will be a real asset to your equine practice, thanks to the all-purpose character of our tools. We can offer standard solutions for every mobile generator. Concerning your safety, ease-of-use, quality and convenience, you, your staff and your horses will be in good hands with Podoblock equipment!

### Stat-X Vaquero

Weight portable X-ray source: 6,0 - 16,0 kg

- Swing arm length: 750 mm
- Vertical travel arm: 700 mm
- Vertical travel stand: 700 mm
- Max height bracket: 209 cm
- Transport size: L 147 x W 30 x H 32 cm

Optional with short legs (50 cm instead of 90 cm) and extra counterweight (6.5 kg).

Weight portable X-ray source: 16,1 - 25,0 kg

- Swing arm length: 580 mm
- Vertical travel arm: 500 mm
- Vertical travel stand: 700 mm
- Max height bracket: 198 cm
- Transport size: L 147 x W 30 x H 32 cm

- Weight: 22 kg
- Color: PMS260C Satin

Weight X-ray source	Itemnumber	Price
6,0 - 16,0kg	RSM 09750 6-16	€ 4.375,-
16,1 - 25,0 kg	RSM 09580 16-25	€ 4.375,-
Short legs /extra counter-	RSM 09SLEW	€ 280,-

### Stat-X Espléndido

Weight portable X-ray source: 6,0 - 14,0 kg

- Swing arm length: 750 mm
- Vertical travel arm: 700 mm
- Vertical travel stand: 410 mm
- Max height bracket: 195 cm
- Transport size: L 114 x W 30 x H 32 cm
- Weight: 22 kg

Weight portable X-ray source: 14,1 - 23,0 kg

- Swing arm length: 580 mm
- Vertical travel arm: 500 mm
- Vertical travel stand: 700 mm
- Max height bracket: 220 cm
- Transport size: L 147 x W 30 x H 32 cm
- Weight: 25 kg
- Color: PMS260C Satin

Weight X-ray source	Itemnumber	Price
6,0 - 14,0 kg	ESM 09750 6-14	€ 5.175,-
14,1 - 23,0 kg	ESM 09580 14-23	€ 5.175,-

### Swingarm Options

Loose Swingarm to upgrade or expand your Stat-X stand to the next level.

- The Bucky Swingarm has a weight-bearing capacity from 4,0 up to 15,0 kg.
- The Vaquero Swingarm has a capacity from 6,0 up to 25,0 kg
- The Espléndido Swingarm has a capacity from 6,0 up to 23,0 kg

For added usability and compatibility, there is a slide & lock adapter at the top of the Bucky Swingarm for connecting to the integrated 3D adjustable joint to our (optional) DR-Buckybox or DR-Cowboybox. See page 29.

Swingarm Types	Itemnumber	Price
Bucky 4,0 - 15,0 kg	SA 09750-DNL 4-15	€ 2.100,-
Vaquero 6,0 - 16,0 kg	SA 09750 6-16	€ 1.850,-
Vaquero 16,1 - 25,0 kg	SA 09580 16-25	€ 1.850,-
Espléndido 6,0 - 14,0 kg	SA 09750-3D 6-14	€ 2.525,-
Espléndido 14,1 - 23,0 kg	SA 09580-3D 14-23	€ 2.525,-

### jiXtr

With the jiXtr your X-ray source becomes an easy-to-handle, versatile and highly portable instrument that will cover every angle, spot or height you desire, while working quickly and safely and sparing your back in the process.

The jiXtr can be adjusted without pre-defined increments and has a variable height-adjustment. It is compatible with all X-ray devices on the market, with a maximum of 15 kg.

The rotation of the source in combination with the unlimited tilt of the jiXtr secures an accurate position for Skyline views.

- Material: Light-weight aluminium
- Transport size: L 12 x W 15 x H 75 cm
- Low position: L 27 x W 29 x H 69 cm
- High position: L 27 x W 29 x H 201 cm
- Stroke range: 165 cm
- Weight: 5,0 kg
- 'Fix-and-release' system

Product	Itemnumber	Price
jiXtr	JSM 09JIXTR	€ 1.495,-

### Sourcerer

The Sourcerer is built from separate components and allows you to build any configuration possible. It can be fixed to either wall or ceiling at any height and the tubes can be mutually connected to create a number of possibilities for turning and/or adjustment. The Sourcerer can be ordered in any desired length.

The rollers for horizontal adjustment are provided with a standard RVS fixture for your source and a spring balancer for stageless vertical adjustment. The Sourcerer can be tuned to perfect horizontal adjustment in order to provide smooth use of the entire system.

- Material: Aluminium
- Maximum length: 200 cm
- Load capacity: 80 kg
- Fixtures: Stainless steel
- Maintenance-free

Product	Itemnumber	Price
Sourcerer Roller	SSM 09ROLLER	€ 1.700,-
Sourcerer w Spring Balancer	SSM 09SPRING	€ 3.000,-

## Generator remote control

### TruXRAY™ Switch

Easy prep-and-expose switch for any portable X-ray source available on the market.

- Plug-and-play device
- Comes with adapter for your source
- Color: black

Note:

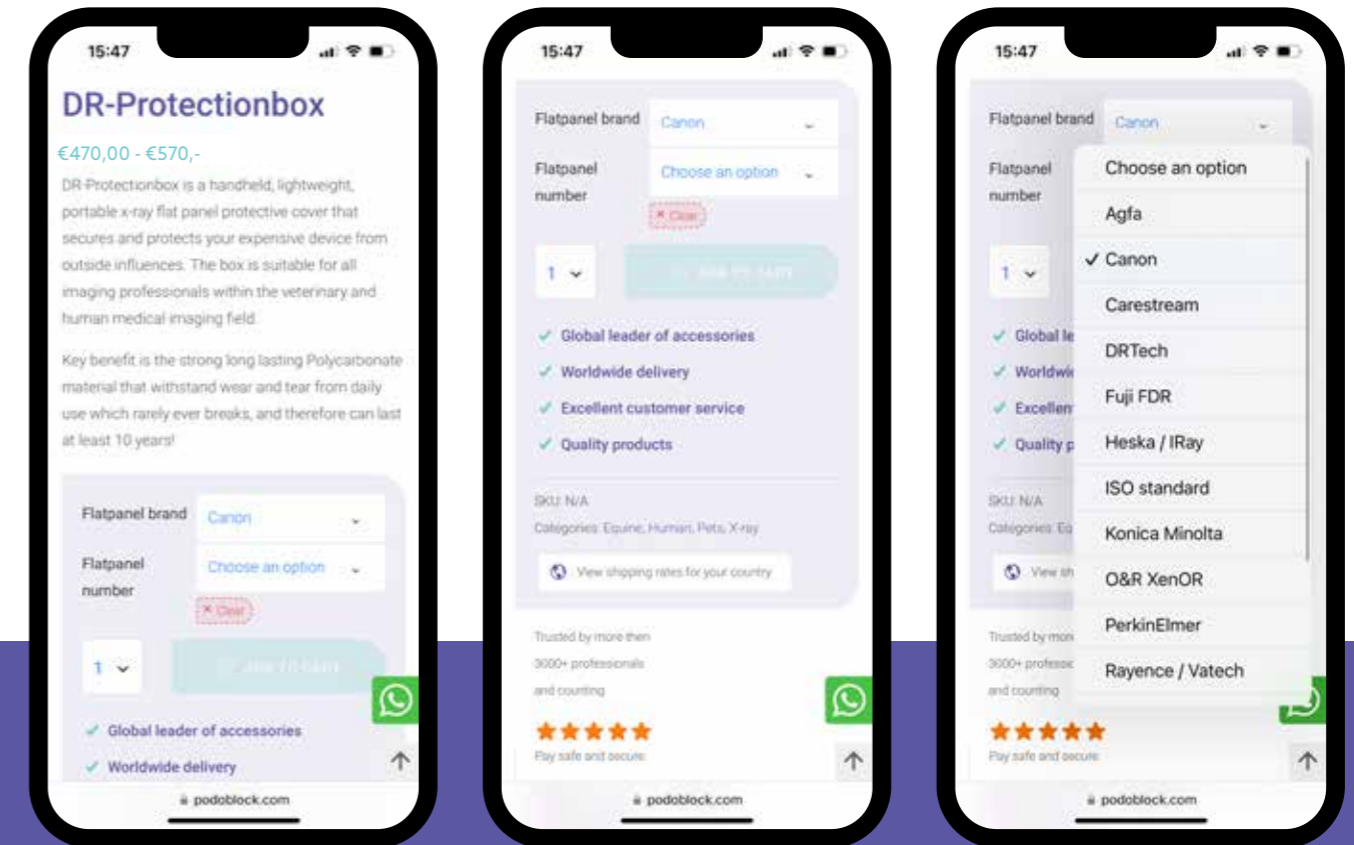

Please measure the width of your generator grip and quote your generator brand when ordering

Product	Itemnumber	Price
TryXRAY™ Switch	All series	€ 295,-

## 5 | Flat panel solutions

The use of radiography is dangerous and highly stressful for the daily working conditions of the veterinarian and veterinary assistant. Taking radiographs releases radioactive radiation, and it is crucial at what distance a person and/or animal is from the X-ray generator and how that person is exposed to the radiation. This chapter focuses on solutions that increase the distance for imaging professionals who are likely exposed to the harmful effects of radiation during X-ray takes. You will also find our DR-product package for protection and easy positioning, we believe we have the most appropriate solution for today's equine veterinarian. In any case, we cannot imagine a practice without it! In total, we cover more than 50 brands of screens on the market.

For easy ordering use the online tool

### DR-Protectionbox

- Light-weight protectionbox - Handheld
- Depending on your DR-system, the box comes with a mounted grip handle or with our Greppstr 2.1 (see page 31).

Product	Itemnumber	Price
DR-Protectionbox   Wired	All Series	€ 470,-
DR-Protectionbox   Wireless	All Series	€ 570,-

### DR-Podo-Protectionbox

Protectionbox with 5 mm adapters to place in our Podoblock and Combibox, that guarantees the same direction and angle with hoof examinations at all times. Depending on your DR system, the box comes with a mounted grip handle or with our Greppstr 2.1 (see page 31).

Product	Itemnumber	Price
DR-Podo-Protectionbox	All Series	€ 470,-
DR-Podo-Protectionbox	All Series	€ 570,-

### DR-Pouch

A radiolucent pouch that protects your fragile and expensive X-ray panel from outside influences during handling!

Our DR-Pouch is available from stock in all ISO measurements and other sizes & models are on request available.

It comes with:

- Synthetic leather on the outside with marked detection area
- One long side and one short side are made of transparent material to get access to switches and view LED's
- Thermo-plastic strap handle covered with rubber grip for comfort carrying
- Fast and convenient zipper closure on one long side for ease access

Product	Itemnumber	Price
DR-Pouch	All Series	€ 340,-

Grab-and-Go

Transparent Sides

### DR-Buckybox

The DR-Buckybox is an affordable alternative version of our X-ray cassette protection case, similar to our DR-Cowboybox.

The DR-Buckybox is ideally compatible with the Denfinity, Bucky Lite and Stat-X Bucky Stand.

- Available from stock for all current DR Flat Panels
- Perfect fitting box and secured with locking door
- The Polycarbonate box comes with the Greppstr 2.1 universal handgrip (for wireless Flat panels) for easy carrying

Product	Itemnumber	Price
DR-Buckybox   Wired	All Series	€ 640,-
DR-Buckybox   Wireless	All Series	€ 740,-

### DR-Cowboybox

Protectionbox, Podo-protectionbox and Remote cassette holder all-in-one.

Standard with mountable telescopic grip, which rotates in 3D positions to get extra distance and a mountable and height-adjustable 300 mm Support Foot.

For enhanced distancing from the x-ray source and thus the radiation exposure, the DR-Cowboybox is ideally compatible with the Denfinity, Bucky Lite and Stat-X Bucky Stand.

Depending on your DR system, the box comes with a mounted grip handle or with our Greppstr 2.1.

Product	Itemnumber	Price
DR-Cowboybox   Wired	All Series	€ 835,-
DR-Cowboybox   Wireless	All Series	€ 935,-

### DR-Cowboy Package

The optimal combined package of DR Products to make all X-rays needed, both safely and in a standardized fashion.

The package deal includes:

- Podoblock
- DR-Cowboybox
- DR-Combibox LM / AP
- Combibox Dummy LM

Product	Itemnumber	Price
DR-Cowboy Package   Wired	All Series	€ 2.475,- *
DR-Cowboy Package	All Series	€ 2.575,- *

\* Combi-Deals: €120 discount on sale price

### DR-Combibox LM / AP

The Skyline side of the DR-Combibox has the same features as the original DR-Skylinebox. Because of the unique angle, the horse is standing comfortably, and there is more space for the X-ray generator. When turned over, the tunnel has extra features to facilitate LM flat views of the foot. The special adapters on the DR-Combibox allow you to take "hands-free" X-rays in combination with our DR Podo-Protectionbox, DR-Cowboybox or DR-Buckybox. This way, the DR-Flatpanel is protected and always in the right position. The DR-Combibox LM / AP has the option to facilitate AP flat views of the foot. This way it is not necessary to replace the foot for both exams.

Product	Itemnumber	Price
DR-Combibox LM / AP	All Series	€ 950,-

### Combibox Dummy LM

The DR-Combibox Dummy LM lifts the equine foot to a higher level. The special adapter on the Dummy block allows you to take "hands-free" X-rays in combination with our DR Podo-Protectionbox or DR-Cowboybox.

- Size: L 235 x W 160 x H 88 mm

### DR-Combibox Set

Both standing feet on the same height is advised with LM and AP examinations. That is why our Combibox Dummy can also be supplied with the DR-Combibox.

- The Combibox Set is included:
- DR-Combibox LM / AP
  - Combibox Dummy LM

Product	Itemnumber	Price
Combibox Dummy LM	CO 06DUM081DR	€ 210,-
DR-Combibox Set	All Series	€ 1.120,- *

\* Combi-deal: €40 discount on sale price.

### DR-Skylinebox

This product is a full protection box made of 20 mm polycarbonate material that withstands the weight of the horse's foot while in standing position during X-ray exams. Because of the particular angle, the horse is standing comfortably, and there is more space for the generator. The top surface comes with a translucent anti-slip surface. A lock secures the opening of the insert.

- Material: 20 mm polycarbonate

Product	Itemnumber	Price
DR-Skylinebox	All Series	€ 625,-

### Grepstr 2.1

This universal grip handle can be used on a number of our DR-products:

- DR-Protectionbox
- DR-Podo-Protectionbox
- DR-Cowboybox
- DR-Buckybox

Product	Itemnumber	Price
Grepstr 2.1	GH 10120M8-12	€ 100,-

### Distance Stick

These sticks can be used on several products for CR Cassette solutions and DR-Flat panel solutions.

Please make sure you choose the correct one.

Product	Itemnumber	Price
CR-Distance Cassette Holder	GH 10STICK-1	€ 100,-
CR-Kneeholder	GH 10STICK-2	€ 100,-
DR-Cowboybox	GH 10STICK-3	€ 100,-
DR-Buckybox	GH 10STICK-3	€ 100,-

### Support Foot

This Support Foot can be used on several products for CR Cassette solutions and DR-Flat panel solutions.

They are universal and work with the CR-Distance Cassette holder with foot option, our DR-Cowboybox and DR-Buckybox.

Size	Itemnumber	Price
28- 49 cm	LS 10300MM	€ 100,-
100-190 cm	LS 101200MM	€ 100,-

## CR Panel Solutions

Computed radiography (CR) systems are still much in use in the veterinary world. At Podoblock we offer a complete product line in order to enable your CR system for your equine tasks. Check our complete CR product portfolio online →

### Stat-X Bucky

With our Stat-X Bucky, you have the most advanced, all-purpose mobile stand that will fully satisfy your needs in your daily working environment.

The Bucky can be ordered with optional short legs (50 cm instead of 90 cm) and extra counterweight (+6,5 kg).

For added usability and compatibility, there is a slide & lock adapter at the top of the Swingarms for connecting to the integrated 3D adjustable joint to our (optional) DR-Buckybox or DR-Cowboybox. It takes only 2 seconds!

#### Technical Specifications:

- Swing arm length: 750 mm
- Vertical travel arm: 700 mm
- Vertical travel stand: 410 mm
- Max height bracket: 185 cm
- Weight X-ray cassette / Panel: 4,0 - 15,0 kg
- Transport size: L 110 x W 30 x H 32 cm
- Weight: 21 kg
- Colour: PMS260C Satin

The Stat-X Bucky is compatible with our DR-Cowboybox and the DR-Buckybox, but it comes without a Cassette or Panel holder, these can be ordered separately. See page 29.

Weight X-ray cass/panel	Itemnumber	Price
4,0 - 15,0 kg	BSM 09750 4-15	€ 4.350,-
Short legs / extra counterweight	RSM 09SLEW	€ 280,-

### Stat-X Swingarm Bucky

The Bucky Swingarm has a weight-bearing capacity from 4.0 up to 15.0 Kg where the 4.0 - 7.0 kg is most convenient for all systems.

For added usability and compatibility, there is a slide & lock adapter at the Bucky Swingarm for connecting to the integrated 3D adjustable joint to our (optional) DR-Buckybox or DR-Cowboybox. See page 29

Swingarm Types	Itemnumber	Price
Bucky 4,0 - 15,0 kg	SA 09750-DNL 4-15	€ 2.100,-

### Bucky Lite

The Bucky Lite is a mobile stand for mounting one of our X-ray cassette protection boxes (DR-Buckybox or DR-Cowboybox). The stand can easily be adjusted to a suitable height for the perfect X-ray result.

It is collapsible and built with light-weighted material for easy transport or carrying around. It is the perfect equipment that is efficient and practical for your daily working environment.

To set up, push down the slide bar located on the vertical tube, and the connecting base wheels will extend outwards and set into a working position. It requires no tools or skills and no loose components. The whole process takes only 5 seconds!

For added usability and compatibility, there is a slide & lock adapter at the top of the tripod for connecting to the integrated 3D adjustable joint to our (optional) DR-Buckybox or DR-Cowboybox. It takes only 2 seconds!

- Light-weighted aluminium material
- Foldable, retractable and movable tripod
- Maximum height of 3D-joint is 175 cm
- Vertical travel of the telescopic tube is 85 cm
- Easily transported with a weight of 4.2 kg
- Folded dimensions L 94 x W 23 x H 23 cm
- Comes with 5 swivel wheels (2 with a locking brake)

Product	Itemnumber	Price
Bucky Lite	BSL 09VIO3D	€ 1.095,-

### Denfinity

This light-weight portable and collapsible stainless steel stand offers you the freedom to make high-quality Skull X-rays in a hands-free fashion.

The Denfinity stand is a fully stainless steel base plate and vertical telescopic pole that guarantees a secure positioning and right height adjustment.

Starting with the base element of the Denfinity, the base plate and pole, you can configure with several options that can quickly and directly be placed on the Denfinity base.

The aluminium 3D-joint is used in combination with our Protectionbox.

The Protectionbox secures your Cassette or Flatpanel when using in combination with the 3D-joint.

Product	Itemnumber	Price
Denfinity Base Element	DSJ 1050401	€ 575,-
Denfinity 3D-Joint	DSJ 10DNL3D	€ 525,-

## 6 | Markers

Despite the digital revolution, the use of markers is still commonplace. Isn't it convenient to be able to carry on doing this in the 21st century - as if it were the analogue era? Sometimes there's just nothing wrong with being 'Old School'...

### X-Ray Clip

Stainless steel clip for analogue and CR-cassettes.

- 55 x 21 mm
- Gap: 18 mm

Product	Itemnumber	Price
L / R	RC 10LR18LF / RF	€ 12,-
LF / RF	RC 10LFRF18	€ 12,-
LV / RV	RC 10LVRV18	€ 12,-
LH / RH	RC 10LHRH18	€ 12,-
LAT / MED	RC 10LATMED18	€ 12,-

### X-Ray Clip DR

Multiclip that clenches around the edges of our boxes / pouches.

- 95 x 25 mm
- Gap: 27 mm

Product	Itemnumber	Price
L / R	RC 10LR27	€ 12,-
LF / RF	RC 10LFRF27	€ 12,-
LV / RV	RC 10LVRV27	€ 12,-
LH / RH	RC 10LHRH27	€ 12,-
LAT / MED	RC 10LATMED27	€ 12,-

### Multimarker

Stainless steel all-in-one marker with suction cup.

- Ø 50 mm

Product	Itemnumber	Price
LF / RF / LH / RH	RCM 10ENZN	€ 30,-
LV / RV / LH / RH	RCM 10DEZN	€ 30,-
LAT / MED / DV / VD	RCM 10LMZN	€ 30,-

### Multiclip DR

Multiclip that clenches around the edges of our boxes or pouches.

- Ø 50 mm
- Gap 27 mm

Product	Itemnumber	Price
LF / RF / LH / RH	RCM 10ENDR	€ 30,-
LV / RV / LH / RH	RCM 10DEDR	€ 30,-
LAT / MED / DV / VD	RCM 10LMDR	€ 30,-

### Sarah Marker

Marker with integrated label to always be sure about the horizontal plane.

Product	Itemnumber	Price
L / R with suction cup	SC 10LRZN	€ 65,-
L / R with stainless steel clip	SC 10LRDR	€ 65,-

### Buckymarker

Marker with suction cup or clip for your cassette holder to provide information about the horizontal plane.

- 360° rotation
- Size: L 48 x W 44 x H 4 mm

Product	Itemnumber	Price
With suction cup	MKB 1048444	€ 45,-
With stainless steel clip	MKB 1048444DR	€ 45,-

### Left & Right X-Ray Lead Markers

- Deluxe, lightweight plastic casing
- Increased durability and an exceptional finish
- Vertical orientation
- Right & left characters are 1.59 cm each
- Sold as a set of markers (left & right)
- Colour: Red & Blue

Product	Itemnumber	Price
L & R Lead Markers	LM 10LRTA4	€ 25,-

## 7 | Image improvement

After our early-day inventing and producing of several X-ray accessories, we received a steady flow of demand for specialized and customized products to enhance and professionalize the quality of X-rays. All these inventions have meanwhile become mainstream in our product line and can usually be delivered from stock.

Carbon

Aluminium

### Antiscatter Grid

Our anti-scatter Grid's are always produced on customer request and therefore will create the most effective device for reduction of scattered radiation. Made of very thin lead strips with the spaces between the strips that are filled with low-attenuating material.

- Grid covers can be from Aluminium (standard) or Carbon fibre (optional) material
- Grid specifications (Focused or Parallel, Focus Distance, Lines per cm, Ratio, Portrait or Landscape model and exact sizing) can be set by ordering
- Below you will find listed the most common sized Focused and Parallel Grid with Aluminium and Carbon fibre covers with their corresponding pricing
- Other specific Grid specifications don't interfere in the pricing
- Grids are always produced on request (lead times 4-6 weeks), therefore no return possible

Product	Model	Size	Itemnumber	Price
Aluminium cover / Focused	24 x 30	268 x 327 mm	AFG 10ISO2430	€ 1.040,-

Carbon fibre cover / Parallel	17" x 17"	460 x 460 mm	CPG 10ISO1717	€ 1.600,-

### Backscatter Lead

- Separate foil with sealed lead to avoid backscatter
- Fast and convenient application behind any X-ray panel
- Fully covered lead Pb 0.15 mm

Brand	Size	Itemnumber	Price
ISO 24 x30	268 x 329 mm   0.15 mm Pb	BL 10ISO2430	€ 200,-
ISO 10" x 12"	280 x 333 mm   0.15 mm Pb	BL 10ISO1012	€ 200,-
ISO 14" x 17"	385 x 460 mm   0.15 mm Pb	BL 10ISO1417	€ 200,-
Vieworks 1012N / 2530VAW	287 x 350 mm   0.15 mm Pb	BL 10287350	€ 200,-
Canon CXDI-80C/801C/810C	308 x 384 mm   0.15 mm Pb	BL 10308384	€ 200,-
Vatech 1012WCA	337 x 395 mm   0.15 mm Pb	BL 10337395	€ 200,-

### Aluminium Wedge

Aluminium Wedges that filter the radiation with high purity, made from homogeneous quality aluminium for better back / neck X-rays.

- Small wedge with Velcro for use on your X-ray generator. Dimensions: 195 x 75 mm / 23°
- Small wedge with Velcro for use on your X-ray generator. Dimensions: 195 x 50 mm / 45°
- Large concave wedge by Prof. J.M. Denoix. Dimensions: 400 x 200 x 40-0 mm

Product	Itemnumber	Price
195 x 75 mm / 23°	AK 101957530	€ 340,-
195 x 50 mm / 45°	AK 101955045	€ 340,-
400 x 200 x 40-0 mm	AK 1040025040	€ 1.150,-

### Aiangle

A great device to measure the exact angle. It is easy to place on both your generator and Cassette Holder. We supply a digital and an analogue version.

Product	Itemnumber	Price
Analogue	AI 10AN1C	€ 50,-
Digital	AI 10RAS2C	€ 50,-

#### Analogue

- Measuring range: 360°
- Velcro base

#### Digital

- Measuring range: 360°
- Magnetic base, tilt display
- 2 AAA batteries included

# MAKE WORK EASIER Re-imagine the way you work

Re-imagine the way you work. With innovative products, we make safe and efficient work naturally.

That is why we started as pioneers in mobile imaging solutions in 2008. We constantly search for and find solutions to make our products smarter, safer, compact and lighter. We implement these innovations in our specialized product range.

# 8 | Protection & Safety

Radiation protection is pivotal to all X-ray exams. It's the alpha and the omega. Fortunately, we offer a complete range of products to protect our users against radiation optimally. With personalized sizes and colours, we have tried to make our product line suitable for all our customers. We have solutions for all environments, be they stationary at your clinic or in a mobile environment - on any location.

## X-Ray Apron

Indispensable protective apron against the dangers of radiation. The X-Ray apron is made of a lightweight nylon.

- Material: Lead Vinyl
- Pb 0.50 mm Front
- Pb 0.25 mm Back
- Snap fasteners

### Cross Base Mobile Lead Shield

This fully collapsible Lead Shield with adjustable radiation barrier protects against secondary or scatter radiation. Easy to transport and use in any location.

- Shield size W 61 x H 90 cm
- Pb value 0.5 mm
- Light-weighted aluminium material
- Collapsible & Height Adjustable (no tools required)
- The maximum height of the bracket for the lead shield is 175 cm
- Vertical travel of the telescopic tube is 85 cm
- Easily transported with a weight of 8,4 Kg
- Folded dimensions 94 x 23 x 23 cm
- It comes with 5 swivel wheels (2 with a locking brake)

Product	Itemnumber	Price
Cross Base Mobile Lead	MLS 10CBASE	€ 925,-

### Mobile Lead Shield

A sturdy protective shield made of anodized aluminium, lined with an impact-resistant plastic layer on both sides.

Comes with four Ø80 mm castor wheels, two of which with brakes.

24 x 30 cm lead glass window.

- Height: 190 cm
- Width: 80 cm
- Pb 2.0 mm

Product	Itemnumber	Price
Mobile Lead Shield	MLS 1025076986	€ 2.800,-

### Scinti Solutions

These standard blocks are made to elevate the horse's foot to the desired height in 2 stages, single or stacked.

The blocks are made without any metal parts, in order to avoid interference with Scintigraphy and comes with 3M anti-slip cover.

Get 2 sets of blocks (4 in total) on which to position the horse. Stacking the blocks allows for a second, higher position of the horse.

#### The 2 available Covers come in 2 different sizes.

- 1 block measures 75 mm in height
- 2 layered blocks measure 145 mm

#### The SET includes:

- 2 sets of 2 blocks
- 1 small Cover, measuring L 76 x W 28 cm and Pb 1,5 mm
- 1 large Cover, measuring L 76 x W 56 cm and Pb 1,5 mm

Both Covers each have 4 corner-grips for easier use and come in grey.

Product	Itemnumber	Price
Cover Small	SC 10COVER_S	€ 325,-
Cover Large	SC 10COVER_L	€ 535,-
SCINTI Blocks (2 x 2 blocks)	SC 10BLOCK2x2	€ 625,-
SCINTI Set	SC 10SET	€ 1.400,-*

\* Combi-deal: €85 discount on sale price

### Warning Sign

Mobile warning sign that radiation is being released.

2

3

4

- Position 1:** 25 cm for imaging the foot and pastern
- Position 2:** 42 cm for imaging the forelimbs and hind limb
- Position 3:** 77 cm for imaging the stifle, shoulder and elbow
- Position 4:** 112 cm for imaging the hip, sacrum, back, neck and endo-rectal images

### Mobile WorkStation

The Mobile WorkStation is a sophisticated, compact, comfortable and flexible construction that creates optimal mobile working space for every mobile professional.

The WorkStation is entirely customizable and upgradeable with StorageBoxes and Upgrade units to create a system that can be easily transported, assembled and disassembled by one person and quickly loaded into a vehicle.

- Colour: Black/Light Grey
- Material: ABS, Aluminium
- Dimensions: W 64 x D 60 x H 90 cm
- Weight: 30 kg
- Upgrades: 13

#### Features

- Completely customizable
- Numerous upgrades possibilities
- Compact and solid

#### Benefits

- Build the system you need to get the job done
- Lightweight for easy transport
- One person assembles and disassembles

Base element

Twist&Lock knob

### Build your own mobile workstation in 4 steps

**Step 1 - Start with a Base element**

**Step 2 - Choose your upgrades - listed on page 60**

**Step 3 - Choose your StorageBoxes and Drawers**

- The boxes are designed to securely stack on top of each other with a Twist&Lock knob. The WorkStation's Base element also has a Twist&Lock knob for securing boxes. The stacking possibilities are unlimited.
- You can stack up the StorageBoxes and Drawers to 68 cm high on the Mobile WorkStation. Need more boxes for your equipment? No worries, you can easily change boxes on the Mobile WorkStation. Another option is to take extra boxes to the mobile workplace on a Transport Base Element (page 60). For safe transportation, a Stationary Base Element is available which secures the StorageBoxes in the car (page 61).
- The StorageBoxes come in 3 standard sizes Medium, Large and XXL Large. These sizes indicate the width of the box. Within the sizes, the boxes have different heights (page 61):
  - M    W 396 x D 296 mm
  - L    W 508 x D 296 mm
  - XXL W 792 x D 296 mm

**Step 4 - Order your mobile workstation or request a demo**

Would you like to see a demonstration to check out the possibilities of the Mobile WorkStation? You are always welcome to visit our workplace in Tynaarlo (NL), we can give an online demonstration or we can look for a possibility to give a demonstration on location. Just make an appointment by contacting us.

### Or choose one of the 4 configurations

Note: see page 59

Mobile WorkStation StorageBox

The StorageBoxes come in 3 standard sizes - Medium, Large and Extra Extra Large. These boxes vary according to height and interior dimensions and are designed to securely stack onto each other with a twist&Lock knob that creates a perfect, uniformed and organised storage system - which can be placed directly onto your Mobile Workstation and easily into a veterinary car. In addition, stacking possibilities are unlimited and create maximum mobility and organisation in a stationary or mobile job site.

StorageBox Types

- Medium (M) has the basic outside dimensions W396 mm x D296 mm is available in six different heights (See table below).
- Large (L) has the basic outside dimensions W508 mm x D296 mm is available in three different heights (See table below).
- Extra Extra Large (XXL) has the basic outside dimensions W792 mm x D296 mm is available in two different heights (See table below).
